

CORPORATE QUALITY

FRUTAS NIQUI MADRIMPORT, S.L. is dedicated to the import and wholesale marketing of fresh fruit and vegetables. Our mission is to meet the needs, requirements and expectations of our customers and other interested parties, offering the best quality and using all available means to preserve the safety of the product and guarantee the best service, within the legal and regulatory framework.

To accomplish this, the **Direction of FRUTAS NIQUI MADRIMPORT, S.L.**, establishes, develops and maintains in the organisation an **Integrated System of Quality Management and Food Safety** with the following fundamental principles:

- **Quality assurance** of our products and processes.
- **Compliance** with current regulations and legal requirements applicable for our products and services.
- **Commitment** to sustainability, ethics and environmental and social responsibility.
- **Responsibility** with the safety culture of our products.
- **Continuous improvement** in work processes and corrective actions.
- **Assignment and training** for the effective performance of roles and responsibilities.
- **Systematization** of work through documented procedures.
- **Motivation and awareness** of our staff on the importance of the implementation, development and improvement of a Food Safety System.

To assess the effectiveness of our system, product safety and quality objectives are implemented annually and regularly reviewed by the General Management and the Quality Department in conjunction with all other departments in the organisation. This review provides us with opportunities for improvement to make further progress.

By ensuring communication at all levels, the company ensures that all employees are aware of the importance of the vision, culture and values that underpin this Corporate Policy.
